

International investor opportunity at Woldingham School

Woldingham is a thriving school where girls become women who can change the world for the better. As one of the UK's oldest schools for girls, Woldingham has a long and successful history in providing an outstanding education for girls and young women aged 11-18 years for more than 175 years. At our main site in the Surrey Hills, the school currently educates around 600 students every year from more than 30 countries.

At Woldingham students prosper academically and develop character and skills which last a lifetime. They leave with excellent exam results enabling them to attend some of the world's leading universities, achieve success in both their personal lives and careers, and make positive contributions to society and communities both in the UK and around the world. Our alumnae include CEOs, medical directors, award winning actors and authors, entrepreneurs, designers and politicians.

Woldingham is a Sacred Heart school, part of an international education network. Our Sacred Heart Goals and Catholic ethos guide our education, with kindness and community in our hearts and at the centre of all we do. It's simply a wonderful place for girls to grow into young women ready to take their place in the world.

The UK school is based in 700 acres of the most beautiful Surrey countryside. Peaceful and tranquil but less than 30 minutes from London, the school has easy access to one of the world's busiest and most dynamic cities.

International schools

In line with our strategic plans, which involve developing closer links with prep schools in the UK and other key developments, and as Woldingham approaches our 180th anniversary, the school is keen for more students internationally to benefit from a Woldingham education. While we educate more than 150 international girls from around the world as boarding students every year, we recognise we could offer many more students an outstanding Woldingham education in a school closer to home.

A British Catholic education remains highly prized in this increasingly global environment. The academic rigour and stretch of British exam qualifications at GCSE and A Level, where Woldingham students achieve excellent results, enables them to excel at university and in their chosen careers. With strengths across the board from science through to performing arts and from competitive sport to classical and modern languages, UK and international students at Woldingham leave with choice, opportunity, and a sense of personal wellbeing. In an international context, we would look forward to making use of this expertise to deliver, together with our partners, a high quality educational experience which may include the delivery of British qualifications or the International Baccalaureate curriculum.

Investor opportunities

Following on from our highly successful internationally-oriented school based in the UK, we are seeking interest from well-established organisations and individuals to build and operate international schools outside the UK.

Woldingham School will support the school development before it opens, as well as grant a licence to use the name, trademarks and intellectual property. Once open, Woldingham School in the UK will work closely with the international schools and senior management teams to share experience, maintain best practice and uphold academic standards and pastoral care of the very highest standards. Partners are responsible for investment in constructing and operating the international school.

If you are a prospective investor interested in discussing plans to develop international schools outside of the UK in association with Woldingham School, please contact the Head, Dr James Whitehead: head@woldinghamschool.co.uk
